General Information

Introduction

Info Source: Sources of Federal Government and Employee Information provides information about the functions, programs, activities and related information holdings of government institutions subject to the [Access to Information Act](#) and the [Privacy Act](#). It provides individuals and employees of the government (current and former) with relevant information to access personal information about themselves held by government institutions subject to the *Privacy Act* and to exercise their rights under the *Privacy Act*.

The [Introduction](#) and an [index of institutions](#) subject to the *Access to Information Act* and the *Privacy Act* are available centrally.

The *Access to Information Act* and the *Privacy Act* assign overall responsibility to the President of Treasury Board (as the designated Minister) for the government-wide administration of the legislation

Background

The Thunder Bay Port Authority, formerly the Thunder Bay Harbour Commission and the Lakehead Harbour Commission is the organization responsible for the federal interests at the Port of Thunder Bay. The Port Authority was created by the Canada Marine Act of 1997 and officially received its Letters Patent July 1, 1999. Thunder Bay Port Authority reports to Parliament through the Minister of Transport.

Responsibilities

The Port Authority is empowered to administer, regulate, develop and promote the Port of Thunder Bay as provided in its Letters Patent. The following responsibilities are undertaken by the Port Authority within its Engineering and Operations program activity: Monitoring of shipping activity within the Port of Thunder Bay and collection of fees as provided in the Port Authority's By-Laws; Development and leasing of lands and waterlots for the purposes set out in its Letters Patent; Operating Keefer Terminal, a multi-modal transportation and warehousing facility; Undertaking research and development related to port activities; Coordinating marine transportation security in consultation with the Port Security Committee; and promotion of the port and its public and private facilities and advocacy on behalf of marine interests.

The Canada Marine Act describes the corporate governance structure. The Act provides that a Chief Executive Officer must be in place and such other officials as may be required by the Directors may be retained.

Institutional Functions, Programs and Activities

ENGINEERING AND OPERATIONS

Engineering & Operations responsibilities include harbour management, port security, emergency planning, engineering services, land development & administration, capital works projects, maintenance, marketing and business development, community relations, port tariffs and port cargo statistics.

Document Types: Wharfage rates, berthage rates; harbour dues.

Record Number: TBPA TAR 030

INTERNAL SERVICES

Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and Oversight Services; Communications Services; Legal Services; Human Resources Management Services; Financial Management Services; Information Management Services; Information Technology Services; Real Property Services; Materiel Services; Acquisition Services; and Travel and Other Administrative Services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Acquisition Services

Acquisition services involve activities undertaken to acquire a good or service to fulfill a properly completed request (including a complete and accurate definition of requirements and certification that funds are available) until entering into or amending a contract.

- [Procurement and Contracting Class of Record](#)

Communications Services

Communications services involve activities undertaken to ensure that Government of Canada communications are effectively managed, well coordinated and responsive to the diverse information needs of the public. The communications management function ensures that the public—internal or external—receives government information, and that the views and concerns of the public are taken into account in the planning, management and evaluation of policies, programs, services and initiatives.

- [Communications Class of Record](#)

Financial Management Services

Financial management services involve activities undertaken to ensure the prudent use of public resources, including planning, budgeting, accounting, reporting, control and oversight, analysis, decision support and advice, and financial systems.

- [Financial Management Class of Record](#)

- [Accounts Payable Personal Information Bank](#)
- [Accounts Receivable Personal Information Bank](#)

Human Resources Management Services

Human resources management services involve activities undertaken for determining strategic direction, allocating resources among services and processes, as well as activities relating to analyzing exposure to risk and determining appropriate countermeasures. They ensure that the service operations and programs of the federal government comply with applicable laws, regulations, policies and plans.

Information Technology Services

Information technology services involve activities undertaken to achieve efficient and effective use of information technology to support government priorities and program delivery, to increase productivity, and to enhance services to the public.

- [Information Technology Class of Record](#)

Legal services

Legal services involve activities undertaken to enable government departments and agencies to pursue policy, program and service delivery priorities and objectives within a legally sound framework.

- [Legal Services Class of Record](#)

Management and Oversight Services

Management and oversight services involve activities undertaken for determining strategic direction and allocating resources among services and processes, as well as those activities related to analyzing exposure to risk and determining appropriate countermeasures. They ensure that the service operations and programs of the federal government comply with applicable laws, regulations, policies or plans.

- [Executive Services Class of Record](#)

Materiel Services

Materiel services involve activities undertaken to ensure that materiel can be managed by departments in a sustainable and financially responsible manner that supports the cost-effective and efficient delivery of government programs.

- [Materiel Management Class of Record](#)

Real Property Services

Real property services involve activities undertaken to ensure that real property is managed in a sustainable and financially responsible manner, throughout its life cycle, to support the cost-effective and efficient delivery of government programs.

- [Real Property Management Class of Record](#)

Travel and Other Administrative Services

Travel and other administrative services include Government of Canada travel services, as well as those other internal services that do not smoothly fit with any of the internal services categories.
